

JENSEN DECORS

Website Technical Documentation

Version 1.0 • April 2025

Confidential — Internal Use Only

Attribute	Detail
Business	Jensen Decors — Premium Wall Art & Interior Décor
Location	DHA Phase VI, Karachi, Pakistan
Founded	2005
Pages	4 (Homepage · About · Products · Contact)
Tech Stack	HTML5 · CSS3 · Vanilla JavaScript (ES6+)

1. Project Overview

Jensen Decors is a premium wall art and décor retailer established in 2005, based in Karachi, Pakistan. The website serves as the company's primary digital presence, showcasing a curated catalogue of wall art, mirrors, wallpapers, metal pieces, shelves, and wall-mounted decoratives to both retail and corporate clients.

Attribute	Detail
Project Name	Jensen Decors — Official Website
Type	Multi-page static HTML website
Business	Premium Wall Art & Interior Décor Retail
Location	Plot 14-C, Khayaban-e-Ittehad, Phase VI, DHA, Karachi — 75500
Founded	2005
Pages	4 (index, about, products, contact)
Tech Stack	HTML5 · CSS3 · Vanilla JavaScript (ES6+)
Fonts	Cormorant (serif) + Outfit (sans-serif) via Google Fonts
External Images	Unsplash CDN (royalty-free)

2. File & Folder Structure

The project follows a flat, conventional structure suitable for any static file host. HTML pages sit at the root; CSS and image assets are stored in dedicated sub-folders.

Path	Description
index.html	Homepage — hero, categories, brands, testimonials, about
about.html	About Us — story, stats, values, team, timeline
products.html	Products catalogue page
contact.html	Contact — info panel, enquiry form, Google Map
CSS/index.css	Styles for the homepage
CSS/about us.css	Styles for the About Us page
CSS/Contact us.css	Styles for the Contact page

Images/Logo.jpg	Brand logo used in the navbar
Images/Metal Art.jpg	Category thumbnail — Metal Wall Art
Images/Wallpaper.jpg	Category thumbnail — Wallpapers
Images/PhotoFrame.jpg	Category thumbnail — Photo Frame Art
Images/mounted animals.jpg	Category thumbnail — Wall Mounted Animals

CSS filenames contain spaces ('about us.css', 'Contact us.css'). Rename to about.css and contact.css and update the link tags before deployment.

3. Pages & Sections

3.1 Homepage (index.html)

Section	Content	Key Elements
Navbar	Logo, nav links, CTA, hamburger	Sticky on scroll, mobile drawer
Hero	Full-screen image + 2 CTA buttons	Overlay, animated entry
Stats Strip	127+ Products · 6 Brands · 10 Yrs · 4k+	Scroll-reveal
Categories	6 product categories with thumbnails	Grid layout, arrow hover
Testimonials	3 star-rated client reviews	Card layout
Brands	6 brand tiles with product counts	Column layout
About Snippet	Brand intro + showroom image	Two-column layout
Contact Band	CTA banner → contact page	Dark background
Footer	Logo · nav links · copyright	Minimal, centred

3.2 About Us (about.html)

Presents the brand's background, values, team, and history:

- Page Hero — Full-width banner: "Crafting Beautiful Spaces Since 2005"
- Story — Two-column layout: brand narrative + craft-focused image
- Stats Strip — 127+ products · 6 brands · 18 yrs · 4k+ clients
- Values — Six-card grid: Quality, Artisan Craft, Curation, Customer Focus, Trusted Brands, Lasting Impression

- Team — Four member cards (Ahmed Jensen, Sara Malik, Usman Raza, Nadia Farooq)
- Timeline — Five milestone entries: 2005, 2009, 2013, 2018, 2023
- Contact Band + Footer

3.3 Products (products.html)

The products catalogue page HTML was not included in the provided source set. Category and brand data are referenced on the homepage:

#	Category	Products	Image Source
01	Metal Wall Art	24	Local (Images/)
02	Wall Papers	36	Local (Images/)
03	Photo Frame Art	18	Local (Images/)
04	Mirror Art	15	Unsplash CDN
05	Wall Shelves	22	Unsplash CDN
06	Wall Mounted Animals	12	Local (Images/)

Total catalogue: 127+ products across 6 brands — Gloster (28), Artisan Co. (21), Nordic House (19), UrbanWall (34), Luxe Décor (15), Forma (10).

3.4 Contact (contact.html)

- Page Hero — Banner with heading "Contact Us"
- Info Panel — Address, two email addresses, two phone numbers, opening hours
- Contact Form — First name, last name, email, phone (optional), subject (dropdown), message; client-side validation + inline success message on submit
- Stats Strip — Same four KPIs repeated
- Google Maps Embed — Pinned to DHA Phase 6, Karachi
- Footer

Detail	Value
Showroom	Plot 14-C, Khayaban-e-Ittehad, Phase VI, DHA, Karachi — 75500
Email (General)	info@jensendecors.com
Email (Sales)	sales@jensendecors.com

Phone (Landline)	+92 21 3588-0001
Phone (Mobile)	+92 300 123-4567
Hours Mon–Sat	10:00 am – 8:00 pm
Hours Sunday	12:00 pm – 6:00 pm

4. Shared UI Components

4.1 Navigation Bar

Present on all four pages. Contains the brand logo (left), horizontal nav links (Home, About Us, Products, Contact Us), a 'Browse All' CTA button, and a hamburger button for mobile. The homepage adds a sticky behaviour — a scroll event listener toggles the `.stuck` class on `#nav` once `scrollY` exceeds 60 px.

Note: Minor bug: `contact.html` links 'Contact Us' in the navbar to `about.html`. Should point to `contact.html`.

4.2 Mobile Navigation Drawer

A full-width overlay drawer (`.mob-nav`) that slides in below the navbar on tap. JavaScript toggles an `.open` class; each drawer link auto-closes the menu via a `transitionend` callback.

4.3 Stats Strip

A dark, full-width band showing four KPI counters. Appears on all four pages. Values: 127+ Products · 6 Brands · 18 Years Experience · 4k+ Happy Clients.

Note: The homepage strip reads '10 Years Experience' while other pages read '18 Years'. Should be unified.

4.4 Contact Band

A full-width CTA section with dark background near the bottom of the homepage and About page. Contains the heading 'Ready to Transform Your Space?', supporting text, and a white button linking to `contact.html`.

4.5 Footer

Identical across all pages: Jensen Decors logotype, four navigation links, and copyright notice (© 2024 Jensen Decors).

5. JavaScript Functionality

All JavaScript is inline at the bottom of each HTML file. No external libraries or build tools are used.

Feature	Pages	Description
Sticky Navbar	index.html	window.scroll adds/removes .stuck when scrollY > 60px
Scroll Reveal	All pages	IntersectionObserver (threshold 0.1) fires once per .reveal element, adds .on class then unobserves. Delay classes: .reveal-d1 / -d2 / -d3
Hamburger Menu	All pages	Toggles .open + aria-expanded on #hbg; shows/hides #mobNav with CSS transition + transitionend cleanup
Form Validation	contact.html	submitForm() validates name, email (@-check), subject, message. On success shows #successMsg and resets all fields.

6. CSS Architecture

6.1 Typography

Two Google Fonts families are loaded on every page via a single <link> in <head>:

- Cormorant — Serif typeface for display headings (hero H1, section H2). Weights: 300, 400, 500 (normal + italic).
- Outfit — Geometric sans-serif for body copy, labels, navigation, and UI elements. Weights: 300, 400, 500.

6.2 Scroll Animation

Animations are CSS-driven. Elements start at opacity: 0 with a translateY offset. When the IntersectionObserver adds the .on class, a CSS transition plays each element into its resting position. Delay variants (.reveal-d1 through .reveal-d3) stagger transitions within card grids for a cascading entrance effect.

6.3 Responsive Design

Layouts adapt via CSS media queries. Key breakpoints handle the shift from the desktop horizontal navbar and multi-column grids to the mobile hamburger and stacked column layouts. The viewport meta tag is set correctly on all pages.

7. Known Issues & Recommendations

#	Page	Issue	Recommendation
1	contact.html	Navbar 'Contact Us' links to about.html	Fix href to contact.html
2	index.html	'10 Years Experience' vs '18 Years' on other pages	Unify to '18 Years'
3	contact.html	Form uses alert() dialogs for validation errors	Replace with inline field-level error messages
4	contact.html	Form has no backend — data is not stored or emailed	Integrate Formspree, EmailJS, or a server endpoint
5	All pages	No favicon defined in <head>	Add <link rel='icon'> to each page
6	All pages	No meta description or Open Graph tags	Add <meta name='description'> and og: tags
7	index.html	Brand tiles link to '#' (placeholder href)	Link each to a filtered view on products.html

8. Brand & Content Reference

8.1 Company Details

Founded: 2005

Headquarters: DHA Phase VI, Karachi, Pakistan

Positioning: Premium / curated — "Every wall is a canvas"

Catalogue: 127+ products across 6 categories

Key Metrics: 6 brand partners · 18 years experience · 4,000+ clients

8.2 Brand Partners

Brand	Products
Gloster	28
Artisan Co.	21
Nordic House	19
UrbanWall	34

Luxe Décor	15
Forma	10

8.3 Team Members

Name	Role
Ahmed Jensen	Founder & CEO
Sara Malik	Head of Design
Usman Raza	Brand Manager
Nadia Farooq	Customer Experience

8.4 Company Timeline

Year	Milestone
2005	First Karachi showroom — metal wall art and decorative mirrors
2009	Introduced wallpapers, photo frames, and wall shelves; 40+ products; first international brand
2013	Second showroom; distribution agreements with Gloster and Nordic House
2018	Website launched — full catalogue accessible across Pakistan
2023	Crossed 4,000 satisfied clients and 127 products

9. Deployment & Hosting

The site is fully static — no server-side rendering, database, or backend runtime required. It can be deployed on any platform that serves static files.

Recommended Hosting Platforms

- Netlify — Drag-and-drop deploy, free tier, custom domain, automatic HTTPS
- GitHub Pages — Free hosting for public repositories
- Vercel — Zero-config static deploy with global CDN
- Traditional cPanel hosting — Upload via FTP; point domain to public_html

Pre-launch Checklist

- Verify all local image paths (Images/*.jpg) resolve correctly on the server
- Rename CSS files to remove spaces (about.css, contact.css) and update link tags
- Connect a real form backend to the contact page (Formspree, EmailJS, or custom)
- Add favicon.ico to the project root and reference in all sections
- Add and Open Graph tags to all four pages
- Fix navbar link bug on contact.html (see Issue #1, Section 7)
- Test on iOS Safari and Android Chrome at various screen sizes
- Verify Google Maps embed loads correctly on the live domain
